

## DUMB

If you look at me I'll hide  
If you speak to me I'm dumb  
But never try to take my turn, I'll bark

Bit you wife I'll never care  
You're getting hurt I will stare  
But never try to touch my dog  
Never try to touch my car

Oh oh won't you tell me why  
People making wars  
While others try to live, in harmony  
I don't care, I've got my TV screen  
Some friends, my wife and my holidays  
I just need more privacy

I suppose a bird is whistling  
Are there flowers near my building ?  
Does my children know their smell, I'm I wondering?

Could my neighbor be my best friend?  
The friend of my child a future president?  
Could I be called to make a war, what would I dye for?

Oh oh won't you tell me why  
People making wars  
While others try to live, in harmony  
I don't care, I've got my TV screen  
Some friends, my wife and my holidays  
I just need more privacy

If you look at me I'll hide  
If you speak to me I'm dumb  
Bit your wife I'll never care  
Your getting hurt I will stare  
Never try to take my turn  
Never try to touch my dog  
Never try to touch my car

You may try to make me laugh  
You may try to make me love
