

## I BELIEVE IN YOU

Looking forward I can hear my land, singing her complain  
Thinking about you several years before, I can't understand  
Many hours making future plans, can we hope again  
Even those who destroyed everything, cry for yesterday

While  
It was  
Paradise  
Paradise, of the ocean  
Such a real life  
I must smile  
Realize  
We were angels  
We were free  
Far away  
Long ago  
In other ages  
Where are we

We must pray, you know, for the land, we have seen  
We must stay, you know, for the land, it have been  
We must pay, you know, for the men, they have been

An we dare say we lost something, I believe you can  
Look around you violence everywhere, world is falling down  
You just care of your own privacy, if everyone does  
Even those who were not in the game, never mind yesterday

While  
It was  
Paradise  
Paradise, of the ocean  
Such a real life  
I must smile  
Realize  
We were angels  
We were free  
Far away  
Long ago  
In other ages  
Where are we

We must pray, you know, you know, for the world we have seen

We must pray, you know, for the world, it have been  
We must pray, you know, for the men, we succeed  
We must pray, you know, for the world, for the men  
For our children, for their life  
Can't allow more dark clouds

I don't believe a situation change, I believe in you  
Love's the only thing that stays the same, I'm looking for you
