

PRAY FOR US TO BE SAVED

For those whose life is a war
Everyday wondering how
They're keeping them alive
Any more

For you always in the dark
For those who can't hear any noise
For all the doors which are closed
Tell me is there a place
Where in any case
Every man can be proud, can be saved

You without any belief
Any aim, any need
I can't guess it indeed
Tell me more

For every child without love
For those who need a friend
For all the people alone
Tell me where is the place
Where in any case
Every man can be proud, can be saved

Does somebody care for us
Is there any chance for us
Is there any hope for our lonely hearts

Does somebody care for us
If so, can you dare be just
A little bit closer, a little more clever

For people who need to work hard
For all those with nothing to eat
I can't believe anything
Can be done

For all those never understood
For some we never listen for
I can hear them inside
Tell me where is the place
Where in any case
Every man can be proud of who they are

Does somebody care for us
Is there any chance for us
Is there any hope for our lonely hearts

Does somebody care for us
If so, can you dare be just
A little bit closer, a little more clever (bis)
