

## SAD WORLD

Laughing, while they are crying  
Are we even thinking about them  
Dreaming, while they are fearing  
Do they even heard about heavens

And we are billions, with little problems  
Far away, from the end  
They are acting on our Television  
But what can we do ?  
What can we say ?  
We almost have to hope  
For our kings change of mind

Playing, while they are fighting  
But we often sing for you  
But we are living, while they are dying  
Sorry, there's not more I can do

And they are millions, we could be among them  
Very close, to the end  
They even don't understand  
And we can't explain  
We can't help  
They decided, we have to bend  
Can we hope again

And some say time will come and love, will be the winner  
But we've been waiting, for centuries  
Without a sign, memories  
Smelling blood and violence  
And it's getting worst, memories  
Sometimes fine for lovers  
Why not everytime
