

## SILVER STAR

I was wondering alone on this Saturday night  
If all I believed in, I was never right  
I was nearly getting crazy  
Staring with the eyes of a baby

Tear drops finally felled on this Saturday night  
With all my dreams and all that was right  
The situation's getting crazy  
All she said was to noisy  
And I had to walk away

If I could have known before this Saturday night  
That you would have come to turn on the light  
I would never stay on her side  
Never waste my time

You were a silver star shining over my head  
Burning in my heart and enjoying my dreams  
Telling me words I never heard  
Loving all my soul

I was feeling fine after this Saturday night  
I was giving love , I was leaving fight  
Running fast on a highway  
There's a hole far behind me

Flying over the clouds, sailing beyond the reefs  
The freedom of my soul was hard to believe  
Another man, another aim  
I can hope again

You were a silver star shining over my head  
Burning in my heart and enjoying my dreams  
Telling me words I never heard  
Loving all my soul

I feel so far away from this Saturday night  
No longer alone and everything's bright  
Situation's getting crazy  
Living with the eyes of a baby

You could be my love more you can believe  
Never be afraid the way you would live  
Everyday would be a sunny day

We could try to reach every maybe  
But you went away
