

## SOMETIMES

Sometimes I feel a little sad  
When I feel about your smile  
Little girl you were so kind  
Like a butterfly

Years are turning through my head  
Remember when we were in love  
Little baby in my arms  
Lying on the sand  
Without any noise

Everytime I met a girl  
For a night or for a while  
Never found just even once  
Lovely moments we have passed  
Never met again, feelings of your hands  
You are  
Like a silver star  
Passing through my mind

Tell me where you are  
Tell me where you'll be  
I believe in you

Waiting for the day  
Waiting for the place  
I will stay with you

Try to come with me  
Try to go away  
Listen to your heart

Far away from yesterday  
Far away from you today  
I believe in such a way  
Love just can't born in a day

Secret voices of my mind  
Just told me how to feel  
Secret places of my heart  
Calling you ever more

We should do the best we are  
Long ago we didn't cry

We should do the best we are  
Long ago we didn't try  
Why didn't we try

What's the meaning of our life  
What's the aim of our love  
Something strange is in my mind  
I think I'll never find

Situations sometimes fine  
Believe dreams of every kind  
Little stories of the past  
Always come again  
Like a boomerang through the years  
I can see again

You are  
Like a silver star  
Passing through my mind

Suddenly reward  
Suddenly you are  
The vision of my mind

Tell me where we are  
Tell me where you go  
Where's my silver star

Lost her in the years  
Left her on a land  
She's in other hands
