SUCH AN EASY WAY

Drug is taken as if they breathe, they are used
They say it's a just a social need, they didn't choose

Girls are treated just like toys, I'm confused
They even don't realize, they are used

What can we say, what can we do, they even don't know how to hear
They just stand there nodding their head, there's a CD playing blues

They'll trust a friend just for a shoot, just for a shoot
Rely on chance, rely on you, just for their needs

Maybe you think you're not concerned, stupid thoughts
You just can't close children eyes, from social needs

See Mary go round ...
She's only fifteen and lovely
She goes around
She just want to see life, innocent child
She just look around

They took her hand and smiled to her
She didn't realized, she failed a while
This while was a hole, the whole of her life
Can we call this life, its just a hole
A hole of silly dreams, dangerous dreams

Don't let it grow, just through it away
Later you'll understand
It's hard to stand
It's such an attractive way
It's such an easy way
A very very easy way
It's such an easy way
An easy way

See the flowers how they smile, it's for you
Love is there just let it come
You'll not loose
You'll not loose ...
