WORLD OF SILENCE

Misunderstood
Past obsessions
You're too dangerous for me

You did it your way
I did it my way
Why can't we recoil one day

I don't know you
You don't know me
Can't we try to talk one day

Understand me
I'll understand you
Listen for what I have to say

We are lost in a world of silence
Separated by a wall of mysteries
Separated by a hole of memories

Conversations
Isolation
I mean superficiality

False emotions
Old sensations
I wanna be sure how I feel

I don't know you
You don't know me
Can't we try to talk one day

Understand me
I'll understand you
Listen for what I have to say

Imagination
World of illusion
I can't live without sincerity

Through the seasons
There's no reason

To put away reality

Thanks it's Friday

There's a party

You're going out with hope you'll find the perfect world

It's too easy

Not enough deep

It stands on nothing, only hope and frustrated dreams

We all have mind without frontiers

Just be sincere

Why to fear

Silent walls of yesterday

Will grow for long

If we don't break it
